

Anubhav Sinha

+91 70041 20948 — sinha.anubhav.79@gmail.com — linkedin.com/in/sinhaanubhav79 — github.com/sinha-anubhav79

Skills

- **Languages** C/C++, JavaScript, TypeScript, Java, Groovy, Python, HTML/CSS
- **Frameworks and Libraries** ReactJs, NextJs, Spring, Springboot, Helidon, Bootstrap, tailwind
- **Tools** Git, GitHub, GitLab, VS Code, IntelliJ IDEA, Kubernetes, Helm, Firebase, Spock, Cucumber
- **Soft skills:** Problem-solving, adaptability, communication, teamwork, leadership, analytical thinking, continuous learning.

Experience

Oracle

Software Developer

Aug 2023 – present

Elastic Charging Engine (ECE) | ⚡ (Java, Spring, Groovy, Spock, cucumber)

- Moved to ECE team working on the existing charging engine. Worked with migration components interacting with PDC.
- Worked and resolved over **70 bugs**, of which **23 were high priority** customer reported issues, **reducing the backlog by 27%**.
- Changed the OpCode Mapping from String values to Integer numbers, **reducing the performance overhead by 19%**.
- Created a **customization option for customers** to get multiple threshold breach notifications and/or aggregated notifications.

Converged Charging System (CCS) | ⚡ (Java, Helidon, Helm, Kubernetes, Kustomize)

- **Back-ported Kustomize updates** to Network Bridge, enhancing metrics, Linkerd along with K6 & job init container.
- Audited, updated and **resolved the vulnerabilities in Common Vulnerabilities and Exposures** suppression files.
- Installed the common services in the new Oracle Kubernetes Engine (OKE) cluster to set up the testing environment.

Software Developer Intern

Jan 2023 – Jul 2023

Converged Charging System (CCS) | ⚡ (Java, Helidon, Helm, Kubernetes, Groovy, Spock)

- Joined with the CCS team working on developing the new, improved, and more scalable charging engine.
- Led the spike and implementation story for **Java version uplift** and the related third-party packages for CCS.
- **Tested all version uplifts** by deploying them on the Kubernetes environment using Helm charts ensuring no functional loss.
- **Migrated Unit test scenarios** from Charging Gateway to the newly developed Processor Framework microservice, **increasing test coverage to over 90%**.

Microsoft

Software Engineer Intern

May 2022 – Jul 2022

Loop components | ⚡ (Typescript, React)

- Worked with the team developing the real-time collaborative workspace called Microsoft Loop components.
- Developed the **people picker schema-type** for schematic tables by direct invocation of the component without Scriptor.
- **Restored text editing capabilities** and collaborative workspace features lost due removal of Scriptor and thus improving the performance overhead added by Scriptor (Microsoft's real-time collaborative text editor).

Education

Birla Institute of Technology, Mesra

Aug 2019 - May 2023

B.Tech. in Information Technology (Computer Science dept.)

GPA: 8.82

Course work: Data Structures and Algorithm, Operating Systems, Object Oriented Programming, Database Management System, Computer Networks

Projects

Resonance | NextJs

December 2022

- Developed a platform where teachers can find the right fit of students to work as interns for their research projects.
- Students can easily find and apply for the right internship as per their skill sets, college, and professor of their choice.

Lemonerd | Nextjs, MongoDB, Firebase

June 2021

- An admin only blogging website including infographics, blog pages, author profiles, and admin features.
- Used Firebase for authentication and storing images, and Tinymce for HTML content storage in MongoDB.

Purple World | Nextjs, Firebase

March 2021

- Created a showcase website for an interior design company in Bangalore called Purple World.
- A static Next.js frontend website, integrated with Firebase for authentication of admin access and storing form response.

Achievements and Position of Responsibility

Vice Chairman

IEEE Students' Chapter BIT Mesra

- Led a 60+ member IEEE team, managing events, budgets, workshops, feedback meetings and external collaborations.

Achievements

- Winner of Student Branch Associates Program, AISYWL'20 conducted by IEEE Delhi Section in December 2020.
- Winner of IEEE LEAD'20, a 3-week web development contest, conducted by IEEE BIT Mesra in June 2020.
